Midwestern Oil And Gas Donates Classrooms To Community

MIDWESTERN Oil and Gas, in partnership with SunTrust Oil Company Limited recently donated a set of 12 classrooms to Utagba-Ogbe Grammar School, Kwale, Delta State, one of the host communities, where Midwestern Oil and Gas has been operating for about eight years. Every

year, the company executes major and significant people-oriented projects in its host communities.

Speaking at the commissioning ceremony, the Managing Director, Mr Charles Oditah, noted that the classroom project is in pursuit of the company's

commitment to the socio-economic development of its host communities.

Oditah noted that the company constructed the 12 classrooms, using the services of two indigenous contractors, while all materials and labour were also sourced from the community.
